

HIS HOUSE: Foundation - The Bible What God wants us to DO

1) How can you apply these verses to be a better student of God's Word?

Psalm 119:133

Be eager to spend time in the Bible in order to guard against sin.

Mark 7:6-7

Romans 12:2

2 Timothy 2:15

James 1:22-25

2) Read Deuteronomy 6:4-9. How can you practically apply these principles today? And what difference do you think it would make?

3) It is important to routinely look into God's Word for guidance in dealing with both large and small problems. Have you had a time when you demonstrated that the Word of God was your final authority? If so, describe it here.

- 4) Based on what you have learned this week, list 2-3 principles in the space below. Principles can fall into any of these categories:
- A truth about God (His person, character, etc.)
 - A promise or warning from God
 - A statement of how He relates to mankind

Examples: God's Word is THE source of truth.

- 5) Write a personal prayer as you talk to God, asking for His help to apply the lesson you have just studied.
-
-
-

- 6) Write down 2-3 steps to implement the things you have learned in the lessons this week. Ask yourself what action God is leading you to take. What things do you need to start / stop doing? For example, a step this week could be to reflect on and apply the names you learned about God and begin to see His different attributes in your daily life.
